German & English native

Education and Work Experience

- 09/2025 - present **Attacking-Lab** **Founder and Managing Director** leading a team of 15 developers
- Organized the A/D CTF for the ECSC 2025 in Warsaw, Poland
- 02/2025 - 09/2025 **Binamic-Security** Binary Analysis Engineer for **Software Composition Analysis**
- Matching engine based on statistical analysis of instruction sequences
 - LLVM-based optimization of P-CODE IR to normalize code for comparison
- 09/2023 - 01/2025 **genua** Software-developer for **High-Performance Network Analysis**
- Design and implementation of high-performance data structures in Rust
 - Building a holistic attack detection and remediation strategy
- 05/2023 **TU Berlin** Bachelor thesis in **Information Security (Grade: 1.0 with honors)**
Undermining AMD Secure Encrypted Virtualization through Cache Side-Channel Attacks — awarded **Rolf-Niedermeier-Preis** for an outstanding bachelor thesis
- 11/2019 - 05/2023 **TU Berlin** **Computer Engineering B.Sc.** at the *TU Berlin* (**Grade: 1.4 / Highest: 1.0**)
- Machine Intelligence I & Compiler Design (master's courses)
- 03/2020 - 02/2021 **SOPAT** Software-developer in **Computer-Vision for Embedded-Systems**
- Developing a smart chemical probe for AI-based particle classification
- 06/2019 **Abitur Exam** at JFKS Berlin bilingual school (**Grade: 1.4 / Highest: 1.0**)

Extracurricular Engagement

- 12/2024 **Executive board member** at *AG Rechnersicherheit e.V.* at the TU Berlin
- 10/2024 *European Cyber Security Challenge (ECSC) 2024*, **placed 1st**
- 07/2022 *Cyber Security Challenge Germany (CSCG) 2022*, **placed 1st**
- 11/2021 *CyberSecurityRumble* CTF with university team, **placed 1st globally**
- 06/2019 **President's Award** for academic excellence

Skills & Tools

- RE / Binary** Disassemble and script with BinaryNinja, Ghidra and radare2
- Exploitation** Use tools like pwntools/pwndbg to ROP, pivot and ret2libc
- Symbolic Execution** Explore constraints with angr/KLEE, solve them with Z3
- Web & Pentesting** Proxy traffic with BurpSuite/mitmproxy, hunt DOM XSS with FoxHound
- Agentic Work** Build sandbox tooling and monitoring for tracing LLM agents
